Alligator Bayou by Donna Jo Napoli

Historical Fiction

Fourteen-year-old Calogero lives in Tallulah, Louisiana, in 1899 with his hard-working Italian family. Providing produce for their neighbors, his self-reliant immigrant uncles struggle with the new language and encounter bigotry in surprising places. Having seen unexpected prejudice in New Orleans, they stick to themselves and try to earn a living. Nevertheless, there are neighbors who resent their self-sufficiency and their ignorance of the town's social mores regarding race mixing, and even their trust in one of the town's leading citizens proves misguided.

Misunderstandings escalate into mob violence, and being innocent means nothing when the livelihood of others is threatened. The anger grows gradually, juxtaposed against Calogero's own dreams of the future and his budding affection for Patricia, a black girl who lives near town. Expanding readers' understandings of the causes and results of prejudices, the author describes effectively the earthy Louisiana bayous and the emotional tempests that sweep the small town.

Bait by Alex Sanchez

Relationships, Family Problems, Sexuality

Diego MacMann gets good grades, takes care of his little brother, is fascinated by sharks, and even has a weekend job to save money for college. Everything, even down to his crush on Ariel, seems normal, but Diego is hiding secrets, too. After his stepdad commits suicide, his mom has to work two jobs and doesn’t notice the changes with Diego. However, after he punches one guy at school for looking at him the wrong way and another guy at the mall for calling him gay, it’s impossible for anyone to not see that something is wrong.

Bait is a story that exposes the internal turmoil some teens face in dealing with sexual abuse and the impact it has on their lives. The story shows how Diego confronts his problems by talking to someone who can help, but in the meantime reveals graphic content. This is for mature readers.

Ball Peen Hammer by Adam Rapp and George O’Connor

Graphic Novel

Ball Peen Hammer, a graphic novel by Adam Rapp and illustrated by George O’Connor, depicts a gruesome, dying world. Not for the faint of heart, this story is unrelenting in its despair and loss. Welton hides in his basement room to avoid the plague that has killed or infected most of the world. He fears leaving the safe space, but that isolation causes its own damage to his life.

The story, filled with the suffering of the characters, is not for readers with weak stomachs, as the visuals of devoured bodies, inhumane acts, and violence are heart-wrenching. The characters feel as if there is no hope in their dying world, and they sometimes participate in violent acts, often out of apathy.

The graphic novel provides a gruesome view of a world where characters feel intensely their loss of hope. It is eerie in its storytelling and its vision.

**Death on the River** by John Wilson  
Historical Fiction/ War/ Redemption  
Orca Book Publishers, 2009, 224 pp., $12.95  
ISBN: 978-1-55469-111-1

*Death on the River* is a story about a young Union soldier who is captured and placed in a Confederate prison camp at Andersonville. While there, he meets Billy Sharp, a man who teaches Jake how to survive the hardships of war life, but only at the cost of others. The end of the Civil War allows Jake to make his way home, only to discover more heartache and death. The imprisoned Union soldier is not a point-of-view typically encountered when reading about the Civil War.

*Death on the River* is a book that forces its readers to venture beyond the vacant facts of war toward the turmoil and guilt experienced by those who are “the one who lived.” Jake’s retelling of his final year as a soldier is both grotesque and heart-wrenching as the reader follows Jake in a world filled with starvation, death, violence, greed, and ghosts.

**Elf Realm: The Low Road** by Daniel Kirk  
Fantasy/Adventure  
Amulet Books, 2009, 544 pp., $8.95  
ISBN: 978-0-8109-4084-0

Fourteen-year-old Matt McCormack doesn’t know what he’s getting into when he convinces his sister to explore their father’s new real estate development. Trudging through the construction site, Matt cuts his foot on a tiny, silver shoe. What first appears to be a curious trinket left behind in the mud turns out to be a clue to another realm all around Matt and Becky. Matt inadvertently uncovers the elf realm, always present but rarely seen, and pulls his sister and himself into the middle of a battle between the magic worlds. Although *Elf Realm* offers a well-detailed imagining of an expansive fantasy world, its characters and storyline are far less developed. Matt seems at times as surly as the evil creatures he’s trying to outwit. The human relationships are cold, challenging the reader’s sympathy and attention.

**Elf Realm: The High Road** by Daniel Kirk  
Fantasy/Adventure  
Amulet Books, 2009, 488 pp., $18.95  
ISBN: 978-0-8109-4075-8

Book Two of the Elf Realm trilogy, *The High Road* offers in complexity what it lacks in character, introducing multiple new characters and increasingly menacing threats to the realm. Matt and Becky are again trying to preserve the Cord, the connection between the elf realm and the human world. In this installment, their quests are separate, providing more adventure but, unfortunately, more opportunity for the story to go awry. Attentive readers will notice when the magical rules of the elf realm contradict each other. Although the complex, multiple plots require the concentration of an older reader, the simpler, more predictable characters are more appropriate for younger readers. Falling short of the coherence of well-crafted fantasy, *The High Road* is most appropriate for readers who prefer traditional battle books.

March toward the Thunder
by Joseph Bruchac
Civil War / Irish Brigade / Native American
Speck, an imprint of Penguin Group, 2009, 298 pp., $8.99
ISBN: 978-0-14-241446-0

Through the summer of 1864, Grant’s Union army mounted a campaign that taxed Lee’s Confederate troops to the limit. Lee’s army suffered severe casualties, but suffered from the inability to resupply and recruit more soldiers. As a result, Lee’s Confederate troops were forced to retreat to the safety of Richmond. Grant, on the other hand, continued to push forward, assured of a continued source of supplies and troops.

Louis Nott, an Abenaki Indian, accepts a payment bonus to join the Union army to fight for the Indians. The money allows his mother to buy and maintain land in New York. Louis is assigned to the Irish Brigade, one of the Union’s most decorated units.

Bruchac’s historical novel depicts the tragedy of war in the midst of courage, brotherhood, sacrifice, racial strife, and death. Louis’s first-person narrative of a boy in battle reminds us not only of the horror of war, but of the ever-present role that Native Americans have played in the unfolding story of American history.

Rapunzel's Revenge
by Shannon and Dean Hale
Adventure/Growing Up/Self-Illus. Nathan Hale
Discovery

If you loved The Goose Girl and Book of a Thousand Days, you are in for another treat. In Rapunzel's Revenge, author Shannon Hale partners with Dean Hale and Nathan Hale to retell the Grimm's classic as a graphic novel.

This is definitely not your grandmother's Rapunzel—the quietly submissive, long-suffering princess, waiting for the prince to rescue her. The Hales's updated teenager-in-a-tower has a big heart, strong braids, and a swashbuckling, high-energy, big-adventure story to tell. This Rapunzel is "WANTED DEAD OR ALIVE for horse thieving, kidnapping, jail breaking, and using her hair in a manner other than nature intended!"

While Rapunzel's Revenge is definitely the stuff of high adventure and the old West, it is very much a story about growing up, learning choices, negotiating potentially dangerous landscapes, confronting cruelty and loss, and re-finding the nurture and comfort that can be had in love.

N.E.R.D.S.
by Michael Buckley
Adventure/Spy/Friendship

Jackson Jones is the focal point of Nathan Hale Elementary; as a star athlete and the most popular kid in school. He is also the only person with a huge crush on the girl across the hall. His curiosity leads him to a group of five “nerds” who have something to hide. Upon further investigation, he discovers that they are here to save the world.

Michael Buckley tries to challenge common social perceptions while entertaining his reader. Though there are some intriguing aspects and cool details, the writer fails to execute the idea that the primary job of a book is to immerse the reader into a world that, although a product of the writer's thoughts, still needs coherent rules, laws, and consistencies. Is there a message of tolerance meant to be hidden between the lines? We cannot help but wonder how much more could have been done by this well-intentioned story and its creators. The writer is clearly good at what he does, but turns a blind eye to the problems of his world.

The only problem with making a varsity team is that brings on a new set of problems and challenges. The Poison Eaters & Other Stories
by Holly Black
Fantasy/Short Story
Big Mouth House, 2009, 256 pp., $17.99
ISBN: 978-1-931520-63-8

Holly Black’s The Poison Eaters & Other Stories takes readers on an entertainingly outlandish journey replete with vampire and werewolf infiltration, souls sold to the Devil, faeries and unicorns striking up deals with humans, and young girls bred to have poisonous skin. In the world Black creates, magic itself is not fantastical or otherworldly; it is organic, natural, never out of place. This collection of short stories takes elements of a dark world, often... and thrusts them all too convincingly into a position of normalcy. Neither people nor stories are constrained by what is routine or plausible.
Readers must shuck off reality, like clothes before a shower, because inside the stories, “magical things seemed like they could be ordinary and ordinary things were almost magical” (108). Recommended for a mature adolescent and imaginative audience, The Poison Eaters will not fail to entertain.
