Many family history sources are now available electronically. Check our eResources for titles under the subject of Genealogy. Here, you can find links to our major subscription services, networked family history resources on CD-ROM, as well as selected free websites. You will need to come to the Library's reading rooms to use some of these which include: Ancestry (Library Edition). Findmypast (World Edition). Frequently used family history material on microfiche and microfilm such as electoral rolls and shipping records can be found on open access in the Newspapers and Family History zone Family History has two meanings, in Social history and Genealogy. Family history is a branch of Social history that focuses on kinship relationships, marriage, children, and memory and constructed pasts. Family history arose simultaneously in several countries in the 1960s, with major leadership roles in France, Britain and, a bit later, the U.S. In Paris demographer Louis Henry and historian Pierre Goubert invented a family reconstitution technique in the 1950s that enabled scholars to assemble all
