Established in 1960, it shares a common boundary with AorakiMount Cook National Park along the main divide

Aoraki/Mount Cook National Park is in the South Island of New Zealand, near the town of Twizel. Aoraki / Mount Cook, New Zealand's highest mountain, and Aoraki/Mount Cook Village lie within the park. The area was gazetted as a national park in October 1953 and consists of reserves that were established as early as 1887 to protect the area's significant vegetation and landscape.[1]. Even though most of the park is alpine terrain, it is easily accessible. The native vegetation continues to be under threat by introduced plant species ranging from non-native trees through to lupins, broom and non-native grasses. These are mostly contained in the valley floors of the Tasman and Hooker Valley, since they are the most accessible parts of the park.[12]. Aoraki/Mount Cook National Park is a rugged land of ice and rock, with 19 peaks over 3,000 metres including New Zealand's highest mountain, Aoraki/Mount Cook. Highlights. Weather forecasts, up-to-date track information and conservation merchandise, including publications and maps, are available at the DOC Visitor Centre. This park is located in the central part of the South Island, deep in the heart of the Southern Alps. Aoraki/Mount Cook village lies within the park with Twizel the nearest town outside.
