

CURRICULUM VITAE

Dale E. Gawlik, Ph.D.

Professor of Biological Sciences

Director of Environmental Sciences

Environmental Sciences Program

Florida Atlantic University

777 Glades Road

Boca Raton, FL 33431-0991

Telephone: 561-297-3333

Fax: 561-297-2749

E-mail: dgawlik@fau.edu

EDUCATION

Doctor of Philosophy in Wildlife Science, *Texas A&M University, College Station, Texas, 1994.* Dissertation title: Competition and predation as processes affecting community patterns of geese.

Master of Science in Biology, *Winthrop University, Rock Hill, South Carolina, 1988.* Thesis title: Reproductive success and nesting habitat of loggerhead shrikes, and relative abundance, habitat use, and perch use of loggerhead shrikes and American kestrels in South Carolina.

Bachelor of Science in Wildlife, *University of Wisconsin Stevens Point, Stevens Point, Wisconsin, 1984.*

MEMBERSHIP IN PROFESSIONAL ORGANIZATIONS

American Ornithologists' Union

Association of Field Ornithologists

Cooper Ornithological Society

Ecological Society of America

Florida Chapter of The Wildlife Society

Florida Ornithological Society

Restoration and Wetlands Working Groups of The Wildlife Society

The Wildlife Society

Waterbird Society

Wilson Ornithological Society

CERTIFICATIONS

Certified Senior Ecologist, The Ecological Society of America, 2006 to present.

Master Bird Bander, U.S. Geological Survey Bird Banding Lab, 2004 to present.

Certified Wildlife Biologist, The Wildlife Society, 1999 to present.

AWARDS AND HONORS

2009 Researcher of the Year (Associate Professor level), Florida Atlantic University, 2009.

2009 College of Science Researcher of the Year (Associate Professor level), Charles E. Schmidt College of Science, Florida Atlantic University, 2009.

Service Recognition, South Florida Ecosystem Restoration Task Force, 2008.

Florida Atlantic University Faculty Research Incentive Award, Florida Atlantic University, 2006.

Plenary speaker for Symposium on Coastal Restoration and Enhancement through Science and Technology (CREST), Thibodaux, LA, 2003.

Elective Member, American Ornithologists Union, 2002 to present.

Employee of the month, South Florida Water Management District, December 2002.

Team of the month, Natural System Drought Team, Watershed Research and Planning Department, South Florida Water Management District, 2001.

Outstanding Doctoral Candidate of the Year, Department of Wildlife and Fisheries Sciences, Texas A&M University, 1993.

Student Paper of the Year, Annual Wilson Ornithological Society Meeting, 1987.

Paul A. Stewart Award, Wilson Ornithological Society, 1987.

Paul A. Stewart Award, Wilson Ornithological Society, 1986.

Student Membership Award, Wilson Ornithological Society, 1986.

FELLOWSHIPS

Senior Visiting Fellow, *Australian Wetlands and River Centre, University of New South Wales, 2011-2012.*

Tom Slick Senior Graduate Fellow, *Texas A&M University, 1993 - 1994.*

EMPLOYMENT

Director, Environmental Sciences Program, *Charles E. Schmidt College of Science, 2007 - present.*
Expanded the interdisciplinary program in Environmental Sciences among the 6 departments in the Charles E. Schmidt College of Science and departments in several other colleges. Oversaw increased enrollment to historic high and improved qualifications of applicants. Enhanced the vertical integration of MS program with undergraduate curriculum and PhD students and post docs in a robust research initiative on aquatic restoration. The Environmental Sciences Program through the research initiative builds on considerable synergistic activities with institutions such as the U.S. Geological Survey, National Park Service, U.S. Fish and Wildlife Service, South Florida Water Management District, Harbor Branch Oceanographic Institution, and the Palm Beach County Zoo. The Environmental Sciences Program administers an MS degree in Environmental Sciences, an undergraduate certificate in Environmental Sciences, and a graduate certificate in Environmental Restoration.

Professor, *Department of Biological Sciences, Florida Atlantic University, 2013 – present.*

Associate Professor, *Department of Biological Sciences, Florida Atlantic University, 2008 – 2013.*

Assistant Professor, *Department of Biological Sciences, Florida Atlantic University, 2003 – 2008.* Research is aimed at understanding the wetland ecosystem processes that control populations of wading birds, with particular emphasis on hydrology and nutrients. Also emphasize study of the processes that make food available to birds and the various responses of birds to varying levels of food availability. Related questions deal with various wetland processes and effects on other birds and aquatic fauna. Heavy emphasis on use of in situ experiments in macro and mesocosms as well as large scale sampling studies and the development of GIS habitat models and resource selection functions. Advise undergraduate, MS, and Ph.D. students who conduct research in wetland and avian ecology. Teach undergraduate and graduate courses in Principles of Ecology, Conservation Biology, and Avian Ecology.

Senior Environmental Scientist (Avian Ecologist), *Everglades Division, Landscape Processes Group, South Florida Water Management District, 1994 – 2003.* Designed, directed, and conducted field research on the effects of hydrologic properties and nutrients on aquatic vertebrate communities in the Everglades, with special emphasis on wading birds and avian communities. Directed a team of research associates and field technicians

and managed an annual program budget of \$ 0.2 - 0.7 mil. Conceived of and directed the construction and operation of a 30-ha physical model system of the Everglades (series of 7-ha macrocosms) to be used for multidisciplinary studies of wading birds and aquatic fauna, tree islands, vegetation communities, and peat soils.

Postdoctoral Research Associate, *Texas A&M University, Sep - Oct 1994*. Effects of spatial scale and environmental variability on temporal patterns of nesting colonial waterbirds along the Texas coast.

Graduate Research Assistant, *Texas A&M University, 1990 - 1993*. Ph.D. research on the effects of competition and predation on community patterns of geese.

Research Supervisor, *Environmental Labs Inc, Apr - Jul 1990*. Directed field research and supervised 11 technicians involved in a toxicology study on golf courses in central Florida. Organized data collection, monitored data quality, coordinated activities with golf course personnel, and directed pesticide treatments.

Biologist, *Environmental Labs Inc, May - Sep 1988 and Apr - Jul 1989*. Impacts of pesticides on avian communities in golf courses in Florida and corn fields in Nebraska. Conducted bird surveys, small mammal censuses, vegetation surveys, determined bird-carcass removal rates by predators, and mist-netted and color-marked a wide variety of birds.

Biological Consultant, *Savannah River Ecology Laboratory, Aiken, South Carolina, 1987 - 1988*. Response of avian community to planted wetland vegetation on newly created reservoirs at the Savannah River Plant.

Graduate Research Assistant, *Winthrop University, 1985 - 1987*. Thesis research on loggerhead shrikes and American kestrels.

Wildlife Technician, *U.S. Fish & Wildlife Service, Northern Prairie Wildlife Research Center, Jamestown, ND, Apr - Jul 1985*. Located waterfowl nests, predator nests or dens, and analyzed vegetation as part of an ongoing study of mallard recruitment rates.

Research Assistant, *University of Wisconsin Stevens Point, Dec 1984 - Apr 1985*. Radio-telemetry study of red fox and greater prairie chickens. Assembled and attached radio transmitters to fox and prairie chickens, and monitored their movements throughout the winter.

Research Coordinator, *Dr. R. K. Anderson, University of Wisconsin Stevens Point, Stevens Point, WI, May - Aug 1984*. Supervised 2-3 technicians, located northern harrier nests, trapped and marked adult harriers, and followed their movement patterns. Surveyed small mammal populations, analyzed nesting vegetation, monitored kestrel nest boxes, and banded young and adult kestrels.

Research Coordinator, *Drs. Fredrick and Frances Hamerstrom, Plainfield, WI, Jun - Aug 1981*. Supervised 1-2 technicians, located northern harrier nests, trapped and marked adult harriers, and observed their movement patterns. Surveyed small mammal populations, analyzed nesting vegetation, monitored kestrel nest boxes, and banded young and adult kestrels. Primary author of Project Guidelines for conducting the 22-year study.

VOLUNTEER POSITIONS

Visiting Scientist, *Long-term study of snow goose ecology in La Perouse Bay, Manitoba, Jun 1992, by Dr. Fred Cooke*. Conducted nest searches and time-activity budgets of nesting snow geese.

Research Coordinator, *Texas A&M University, 1990 - 1994*. Supervised 4-8 technicians and compiled data related to the observation of neck-banded geese wintering in Texas. Organized and participated in capturing geese with rocket nets and attaching neck-bands.

Research Assistant and Naturalist, *Little Lewis Whirlwind Nature School and Sanctuary, Jay, OK, May - Aug 1983*. Lead and assisted in nature interpretive walks, collected plants for herbarium, conducted breeding bird surveys, and banded ruby-throated hummingbirds and songbirds.

Research Assistant, *Drs. Fredrick and Frances Hamerstrom, Plainfield, WI, Jun - Aug 1976 - 1979*. While in

Junior High School and High School, assisted with long-term research project on breeding biology of northern harriers and American kestrels. Developed field skills and set career goals.

ELECTED POSITIONS

Councilor, *Association of Field Ornithologists, 2013-2016.*

Past President, *Florida Chapter of The Wildlife Society, 2013-2014.*

President, *Florida Chapter of The Wildlife Society, 2011 – 2013.*

President-elect, *Florida Chapter of The Wildlife Society, 2010 – 2011.*

Vice President, *Florida Chapter of The Wildlife Society, 2007-2009.*

Representative to the Southeast Section of The Wildlife Society, *Florida Chapter of The Wildlife Society, 2005-2007.*

Secretary, *Florida Chapter of The Wildlife Society, 2003-2005.*

Executive Board Member at Large, *Florida Chapter of The Wildlife Society, 2001 -2003.*

Past Chair, Restoration Working Group, *The Wildlife Society, 2001.*

Chair, Restoration Working Group, *The Wildlife Society, 2000.*

Chair Elect, Restoration Working Group, *The Wildlife Society, 1999.*

ACADEMIC COMMITTEES

Steering Committee for University Research Theme: Coastal and Marine, *Florida Atlantic University, 2012-2013.*

Curriculum Committee, *College of Science, Florida Atlantic University, 2012-present.*

Integrative Biology PhD Program Committee, *Florida Atlantic University, 2011- present.*

Search Committee for Director of Harbor Branch Oceanographic Institute, *Florida Atlantic University, 2010.*

Executive Committee for Charles E. Schmidt College of Science, *Florida Atlantic University, 2009-present.*

Faculty Search Committee Plant Ecologist, *Department of Biological Sciences, Florida Atlantic University, 2009.*

Chair, Environmental Sciences Program Committee, *Florida Atlantic University, 2007-present.*

Florida Department of Environmental Protection and FAU Coordination Committee, *Florida Atlantic University, 2007-2010.*

Integrative Biology Ph.D. Admissions Committee, *College of Science, FAU, 2005- 2006.*

Chair, Faculty Search Committee Ecological Modeler, *Department of Biological Sciences, Florida Atlantic University, 2005.*

Graduate MS Program Committee, *Department of Biological Sciences, FAU, 2004- present.*

Graduate Student Advisory Council, *College of Agriculture and Life Sciences, Texas A&M University, 1992 - 1993*. Developed recommendations for the expenditure of Graduate Program Enhancement Funds at the college level.

Graduate Affairs Committee, *Department of Wildlife and Fisheries Sciences, Texas A&M University, 1992 - 1993*. Developed recommendations on graduate affairs for graduate faculty.

PROFESSIONAL COMMITTEES

Best Student Publication Committee, *Association of Field Ornithologists, 2013-present*.

Student Travel Award Committee, *Association of Field Ornithologists, 2013-present*.

Science Advisory Committee, *Gulf Coast Bird Observatory, Lake Jackson, Texas, 2012 – present*.

Science Advisory Committee for the Whooping Crane Eastern Partnership, *U.S. Fish and Wildlife Service, 2011-present*.

Local Arrangements Committee: Chair, Fieldtrips, 2008 International Conference of The Wildlife Society, *Florida Chapter of The Wildlife Society, 2007-2008*.

Aldo Leopold Memorial Award Committee, *The Wildlife Society, 2007*.

Scholarship Committee, *Florida Ornithological Society, 2006-2007*.

Chair, Aldo Leopold Memorial Award Committee, *The Wildlife Society, 2006*.

Reddish Egret Working Group, *U.S. Fish and Wildlife Service, 2005-present*.

Wood Stork Working Group, *U.S. Fish and Wildlife Service, 2005-present*.

Cruikshank Award Committee, *Florida Ornithological Society, 2005-2009*.

Peer Review Panel Member for Kissimmee Chain of Lakes Long-term Management Plan Conceptual Ecosystem Model, *South Florida Water Management District, 2005*.

Louis Agassiz Fuertes Award Committee, *Wilson Ornithological Society, 2004-2005*.

Aldo Leopold Memorial Award Committee, *The Wildlife Society, 2005*.

Isolated Wetland Drawdown Criteria Working Group, *1999 - 2000*. Evaluated hydrological and biological models to assist in rule development for groundwater withdrawals in south Florida.

Critical Ecosystem Studies Initiative Program, Science Advisory Committee, *1999 – 2000*. Provided guidance and recommendations for federal research implementation directed at south Florida ecosystem restoration and management.

Chair, Membership Committee, *Florida Chapter of The Wildlife Society, 1999 - 2001*.

Central Everglades Subteam of the Scientific Advisory Team to the U.S. Army Corp of Engineers Central and South Florida Restudy, *1997 – 2000*. Evaluated predicted ecosystem response to various management scenarios as part of the federal Everglades Restoration effort.

Honorary Membership and Special Recognition Service Award Committee, *The Wildlife Society, 1994 – 1995 and 1999 - 2000*.

Southern Everglades Restoration Alliance, Natural Systems Team, *1995 – 1999*. Developed guidelines and

implemented portions of a biological monitoring program to evaluate hydrologic changes to the southern Everglades.

Wading Bird Success Criteria Team of the Science Sub-group of the South Florida Ecosystem Restoration Interagency Working Group of the South Florida Ecosystem Restoration Task Force, 1996 – 1997. Developed indices to assess the recovery of wading bird populations in the Everglades as part of the Everglades restoration process.

International Shrike Working Group North American Section, 1993 - 1995. Promoted conservation of shrikes and endorsed qualified research on shrikes in North America.

OTHER PROFESSIONAL EXPERIENCE

Organized training workshop on python handling and safety, with Nature Conservancy, Florida Fish and Wildlife Conservation Commission, and Miami Dade Fire Rescue, *Florida Atlantic University*, June 2012.

Panelist, Invasive Species Workshop, *Palm Beach State College*, Boca Raton, FL, 2012.

Reviewer, Biological Status Review of Florida's Threatened Species Program, *Florida Fish and Wildlife Conservation Commission*, 2010.

Dissertation Reviewer, *University of New South Wales*, Sydney, Australia, 2010.

Dissertation Reviewer, *University of New England*, Armidale, Australia, 2010.

Co-organized symposium entitled System-wide Science: Translating a Trophic Hypothesis Foundation for Restoration. Greater Everglades Ecosystem Restoration Conference, 2010, Naples, FL.

Panelist, Scripps Howard Institute on the Environment: Continuing education for journalists. *Florida Atlantic University*, 2009.

Panelist, Oil and Gas Impacts in the Big Cypress Ecosystem. *The Everglades Foundation*, 2009-2010.

Co-organized a workshop entitled Climate Change and Greater Everglades Restoration. *Florida Atlantic University*, 2008.

Co-organized a workshop entitled Development of a Tree Island Conceptual Ecological Model and Tree Island Performance Measures. *Florida Atlantic University*, 2007.

Everglades Restoration Workshop Organizer, *Florida Atlantic University*, 2007 and 2008. Brought together senior scientists involved in Everglades restoration to discuss alternatives under changing water availability scenarios.

Editorial Board Member, *The Scientific World*, 2000-2003.

Editor, South Florida Wading Bird Report, 1996-2003.

Manuscript Referee, 1985 – Present, *American Midland Naturalist*, *Auk*, *Conservation Biology*, *Conservation Ecology*, *Ecology*, *Florida Field Naturalist*, *Ibis*, *Journal of Animal Conservation*, *Journal of Field Ornithology*, *Journal of Raptor Research*, *Journal of Wildlife Management*, *Southwest Naturalist*, *Waterbirds*, *Wetlands*, and *Wilson Journal of Ornithology*.

Assistant Editor, *Wilson Bulletin*, Aug 1985 - Dec 1987. Edited, refereed, and guided manuscripts through all stages of the editorial process.

International Natural Resources Management Training, *University of Wisconsin Stevens Point*, 1982. Summer course West Germany on integrated forestry, wildlife, water, and soil resource management.

TEACHING

Instructor, *Florida Atlantic University*, Conservation Biology (PCB 6045). Developed and taught new graduate course on the principles of Conservation Biology. Format is lecture, team projects, guest speakers, paper discussions, and a field trip.

Instructor, *Florida Atlantic University*, Seminar in Avian Ecology (Zoo 6544C). Developed and taught new graduate course focusing on recent topics in the literature. Format is student-led discussion with introductory and synthesis lectures by the instructor.

Instructor, *Florida Atlantic University*, Principles of Ecology (PCB 4043). Taught this existing large enrollment undergraduate course required for biology majors. Format is lecture with three simulation model exercises done in teams.

Advisor for undergraduate Fellows in National Science Foundation Undergraduate Research and Mentoring program in the Department of Biological Sciences at Florida Atlantic University (2009-present).

Workshop instructor, *Lamanai Field Research Station*, Orangetown, Belize, 2003. Member of U.S. scientific team conducting training on research and monitoring for Belizean scientists.

Contributing Naturalist, *University of Florida, Institute of Food and Agriculture Science*, 2001, Training film for Florida Master Naturalist Program, Freshwater Wetlands Module (FW14).

Doctoral candidate graduate committee member, *University of Florida, Department of Wildlife Ecology and Conservation*, 1998 – 2002.

Courtesy Assistant Professor of Biology, *Department of Biology, Florida International University*, 1996 – 1999.

Contributing Instructor, *University of Florida, Institute of Food and Agriculture Science*, 1999 -2006, Survey of a Land System - South Florida Ecosystems (SOS-6932).

Instructor, *Department of Wildlife and Fisheries Sciences, Texas A&M University*, Spring semester 1994. Wildlife Conservation and Management (WFSC 201).

Guest Lecturer, *Department of Wildlife and Fisheries Sciences, Texas A&M University*, Fall semester 1991. Renewable Natural Resources (REN205).

Teaching Assistant, *Department of Biology, West Virginia University*, Sep 1989 - Apr 1990. Biology 3 Lab.

RESEARCH GRANTS AND CONTRACTS

Restoration modeling: wading bird synthesis and refinement. D. E. Gawlik, funded \$10,000 by National Park Service, 2013-2014.

Dry season prey concentrations. D. E. Gawlik, funded \$202,426 by U.S. Army Engineer Corp of Engineers Research and Development Center, 2013.

Feasibility of modeling impacts of sea level rise on foraging habitat of the Little Blue Heron in the Great White Heron National Wildlife Refuge, Phase II: factors affecting habitat D. E. Gawlik and B. Lapointe, funded \$50,000 by U.S. Fish and Wildlife Service, 2012-2013.

Impacts of sea-level rise and anthropogenic nutrient inputs on the Little Blue Heron. D. E. Gawlik and B.

Lapointe, funded \$8,000 by FAU Seed Grant, 2012-2013.

Postdoctoral investigator program in marine science, engineering and technology: effects of nutrient enrichment on wading bird habitat in the Great White Heron National Wildlife Refuge, lower Florida Keys. B. Lapointe and D. E. Gawlik, funded \$112,640 by Harbor Branch Oceanographic Institute at Florida Atlantic University, 2012-2014.

Dry season prev concentrations. D. E. Gawlik, funded \$202,350 by U.S. Army Engineer Corp of Engineers Research and Development Center, 2012.

Wading bird colony location and size in Pelican Island National Wildlife Refuge. D. E. Gawlik, funded \$7,958 by U.S. Fish and Wildlife Service, 2011-2012.

Feasibility of modeling impacts of sea level rise on foraging habitat of the Little Blue Heron in the Great White Heron National Wildlife Refuge. D. E. Gawlik and Z. Xie, funded \$49,741 by U.S. Fish and Wildlife Service, 2010-2011.

Aquatic fauna seasonal concentrations. D. E. Gawlik, funded \$210,245 by South Florida Water Management District, 2010-2011 (Funded at \$974,033 through FY 15 but subsequently reduced because of state budget cuts).

Wading bird evaluation team/assessment team model integration and development. E. Noonburg, D. E. Gawlik, and Z. Xie, funded \$167,848 by U.S. Army Engineer Corp of Engineers Research and Development Center, 2010-2012.

Aquatic fauna seasonal concentrations supplemental funding. D. E. Gawlik, funded \$49,485 by South Florida Water Management District, 2009-2010.

Wading bird colony location, size, timing and Wood Stork nesting success: Lake Okeechobee. D. E. Gawlik, funded \$428,404 by U.S. Army Engineer Corp of Engineers Research and Development Center, 2009-2013.

Everglades fellowship program at Florida Atlantic University. D. E. Gawlik, funded \$500,000 by National Park Service, 2009-2011.

Multiple responses of Wood Storks and other wading birds to wetland restoration. D. E. Gawlik, funded \$40,000 by South Florida Water Management District, 2009-2010.

Multiple responses of Wood Storks and other wading birds to wetland restoration. D. E. Gawlik and M. Cook, funded \$50,859 by Florida Fish and Wildlife Conservation Commission, 2008-2010.

Patterns of variability and error in the EDEN digital elevation model in the A.R.M. Loxahatchee National Wildlife Refuge. Z. Xie and D. E. Gawlik, funded \$12,838 by U.S. Geological Survey, 2008.

Assessment of the environmental lift of stormwater treatment areas on South Florida avifauna: phase II long-term study. D. E. Gawlik, funded \$122,523 by South Florida Water Management District, 2008-2010. Received \$76,386 for 1 of 3 years.

Assessment of the environmental lift of stormwater treatment areas on South Florida avifauna - phase I feasibility study. D. E. Gawlik, funded \$43,131 by South Florida Water Management District, 2007.

Wading bird colony location, size, timing and Wood Stork nesting success. D. E. Gawlik, funded \$279,243 by National Park Service, 2007-2008.

Aquatic fauna seasonal concentrations. D. E. Gawlik, funded \$535,000 by South Florida Water Management

District, 2007-2010.

LILA: Factors affecting wading bird prey availability and foraging success. D. E. Gawlik, funded \$280,101 by South Florida Water Management District, 2006-2009.

Landscape suitability index for the wood stork and white ibis in southwest Florida. D. E. Gawlik, funded \$60,000 by University of Florida, 2006-2007.

Wading bird colony location, size, timing and Wood Stork nesting success. D. E. Gawlik, funded \$220,360 by National Park Service, 2005-2006.

Constraints of landscape prey availability on resource use, physiological condition, and productivity of Great Egrets and White Ibises in the Florida Everglades. D. E. Gawlik and G. Herring, funded \$488,095 by U.S. Fish and Wildlife Service, 2005-2007.

Foraging flights of Wood Storks in Everglades National Park. D. E. Gawlik, funded \$70,000 by National Park Service, 2004-2006.

Aquatic fauna seasonal concentrations. D. E. Gawlik, funded \$391,000 by South Florida Water Management District, 2003-2006.

Effects of hydrology on wading bird foraging parameters as part of the Critical Ecosystems Studies Initiative. D. E. Gawlik and F. Sklar, funded \$124,000 by U.S. Geological Survey, 1999-2002.

Status and trends of selected vertebrate resources in the Galveston Bay System. R. D. Slack and D. E. Gawlik, funded \$12,478 by Texas Parks and Wildlife Department, 1991.

Effects of flock organization and habitat use on the foraging behavior of geese in southeastern Texas. R. D. Slack and D. E. Gawlik, funded \$26,000 by The Southeast Texas Wildlife Foundation, 1991-1992.

Indirect effects of shared predation result in population and community patterns similar to those produced by inter-specific competition (Holt and Kotler, 1987; Holt and Lowton, 1994; Holt et al., 1994). competition between insect herbivores was again investigated (Stiling and Strong, 1983, 1984; Sih et al., 1985; Fritz et al., 1986; Holt and Kotler, 1987; Schmith, 1987; Karban, 1986; 1989, Crawley and Patrasudhi, 1988; Evans, 1989), and this work still continues (Gilbert and Owen, 1990; Moran and Whitham, 1990; Settle and Wilson, 1990; Evans, 1992; Holt and Lowton, 1993; Holt, et al., 1994; Karban). Relatively little is known about the role of predation in shaping patterns of coexistence and nest dispersion of songbird species. potentially offset the negative effect of competition for forage on resident species by diluting their risk of predation (Fryxell 1995). On the other hand, because escape from predation and/or more efficient exploitation of food resources enable migrants to become more abundant than their resident equivalents (Fryxell et al. 1988), they may subsidise predators in the resident range, allowing them to become more abundant than would otherwise be the case (Packer et al.).

9.2.3 Effects of migration on ecosystem processes.

Migratory animals can impact a number of ecosystem processes, such as nutrient cycles and primary productivity, via both direct and indirect pathways. The addition of nest predation as a major process to current theories of space utilization and coexistence of open-nesting bird species adds predictive power to hypotheses of resource partitioning and organization of species assemblages. Nest predation can influence the organization of assemblages if predators respond to nests in a density-dependent manner and if predators specialize on nest types. Evidence shows that nest predation is commonly density-dependent and that predators can specialize on nest types.
