

10% Human : How Your Body's Microbes Hold the Key to Health and Happinessby **Collen, Alanna**

9 780062 345981

A revelatory, illuminating guide to the role of your body's microbes in promoting your health and happiness. This is popular science at its most relevant: life will never seem the same again. You are only 10% human. For every one of the cells that make up your body, there are nine impostor cells hitching a ride. You are not just flesh and blood, muscle and bone, brain and skin, but also bacteria and fungi. And you are more "them" than you are "you." Far from being passive, the trillions of microbes that live on and in you are intimately involved in running your body.

Block City: Incredible Minecraft Worlds : How to Build Like a Minecraft Mas ...by **Kearney, Kirsten**

9 781419 716188

Minecraft--a humble computer game about placing blocks--is a global phenomenon that has captured the imagination of more than 36 million players around the world. Often described as a digital version of LEGO, Minecraft offers an open-ended playing field where players design and build environments that others can explore. For many users, the game's "creative mode" is its most appealing feature: The game is helping to shape a generation of young architects, designers, and artists. The most impressive and spectacular achievements in Minecraft design are its cities, which range in style from contemporary realism to fantasy, from historical to futuristic. The product of thousands of hours of work by devoted Minecraft players, these virtual places are the

DOGS & UNDERDOGS
FINDING HAPPINESS AT
BOTH ENDS OF THE LEASH
ELIZABETH ABBOTT

FP 10,000(CDN) A heartwarming look at how happiness can be found at both ends of the leash in all kinds of places. Elizabeth Abbott had always been an animal lover, sharing her life with all kinds of dogs in need. But when worlds collided and her beloved dog Tommy was left behind in Haiti, a new journey began: one that would take her to some very surprising places and ultimately teach her some essential truths about the power of hope and redemption. Abbott meets people whose lives are changed forever by a wagging tail and a pair of soulful eyes. Canadian author - Toronto

Empire of Deception : From Chicago to Nova Scotia - the Incredible Story of ...by **Jobb, Dean**

9 781443 441087

FP 6,500(CDN) EMPIRE OF DECEPTION is not only an incredibly rich and detailed account of a man and an era; it is a fascinating look at the methods of swindlers throughout history. Leo Koretz was the Bernie Madoff of his day, and Dean Jobb shows us that the dream of easy wealth is a timeless commodity. A slick, smooth-talking, charismatic lawyer, Leo enticed hundreds of people to invest as much as \$30 million in phantom timberland and non-existent oil wells in Panama. When Leo's scheme finally collapsed in 1923, he vanished. When finally apprehended, Leo was living a life of luxury in Nova Scotia under the assumed identity of a book dealer and literary critic.

For Better or For Worse: Comic Art of Lynn Johnstonby **Johnston, Lynn**

9 780864 928641

For 30 years, cartoonist Lynn Johnston made daily additions to what would become a monumental body of work: her newspaper comic strip, For Better or For Worse that chronicled the daily lives of the middle-class suburbanite Patterson family. Wildly funny and formally innovative, this book will be published to coincide with an international touring exhibition of Lynn Johnston's work, organized by the Art Gallery of Sudbury. It features some of Johnston's most popular narratives, an essay that chronicles the development of her drawing and the history of her wildly successful comic strip.

Humans Are Underrated : Proving Your Value in the Age of Brilliant Technolo ...by **Colvin, Geoff**

FP 75,000. From the bestselling author of TALENT IS OVERRATED, an extensive look at the essential human skills that can never be replaced by technology. In the economy of a few years from now, what will people do better than computers? The real issue is what we humans are hardwired to do for and with one another, arising from our deepest, most essentially human abilities - empathy, social sensitivity, storytelling, humor, forming relationships, creativity. These are how we create value that all people hunger for, that is unique and not easily quantified.

ISIS : The State of Terrorby **Stern, Jessica**

FP 75,000. ISIS: THE STATE OF TERROR offers practical ideas on potential government responses - most importantly, emphasizing that we must alter our present conceptions of terrorism and terrorists and react to the rapidly changing jihadi landscape, both online and off, as quickly as the terrorists do. As it lays out what our next move - as a country, as a government, as the world - should be, it offers a vital assessment of the future of counterterrorism and countering violent extremism. Jessica Stern and J. M. Berger analyze the tools ISIS uses both to frighten innocent citizens and lure new soldiers.

Last Love Song : A Biography of Joan Didionby **Daugherty, Tracy**

9 781250 010025

In The Last Love Song, Tracy Daugherty, the critically acclaimed author of Hiding Man (a New Yorker and New York Times Notable book) and Just One Catch, delves deep into the life of distinguished American author and journalist Joan Didion in this, the first printed biography published about her life. Joan Didion lived a life in the public and private eye with her late husband, writer John Gregory Dunne, whom she met while the two were working in New York City when Didion was at Vogue and Dunne was writing for Time. They became wildly successful writing partners when they moved to Los Angeles and co-wrote screenplays and adaptations together. Didion is well-known for her literary journalistic style in both fiction and non-fiction. Some of her

No Better Friend : One Man, One Dog, and Their Extraordinary Story of Coura ...by **Weintraub, Robert**

9 780316 337069

The extraordinary tale of friendship and survival between a man and a dog in war. AN UNCOMMON BOND tells the remarkable story of Royal Air Force technician Frank Williams and Judy, a purebred pointer, who met in an internment camp during WWII. Judy was a fiercely loyal animal who sensed danger and instinctively mistrusted anyone in enemy uniform. Their relationship deepened throughout their imprisonment. The prisoners suffered severe beatings which Judy would interrupt with her barking. The dog became a beacon for the men, who saw in her survival a flicker of hope for their own. Judy was the war's only canine POW, and when she passed away in 1950, she was buried in her Air Force jacket. Williams would never own another dog. Their

Someone Is Hiding Something : What Happened to Malaysia Airlines Flight 370 ...by **Belzer, Richard**

9 781632 207289

A year after the disappearance and commencement of the international search for Malaysia Airlines Flight 370, no sign of the plane has been found--no debris, no bodies, no sign of the much-talked-about black box. Richard Belzer and David Wayne want to know why. Scrutinizing the theories the media and politicians around the world claim are the "most likely" reasons the plane crashed, Belzer and Wayne argue that if a year after a huge Boeing 777 has gone missing, and there's still no sign of it whatsoever, it's time to think outside the box. The public needs to stop being misled. If a plane and its passengers went "missing" once, what's to stop it from happening again? In informative, engaging text, Belzer and Wayne consider ten lesser-talked-about possible

Under the Same Sky : From Starvation in North Korea to Salvation in America ...

by Kim, Joseph

9 780544 373174

A searing story of starvation and survival in North Korea, followed by a dramatic escape, rescue by activists and Christian missionaries, and success in the United States thanks to newfound faith and courage. Inside the hidden and mysterious world of North Korea, Joseph Kim lived a young boy's normal life until he was five. Then disaster struck: the first wave of the Great Famine, a long, terrible ordeal that killed millions, including his father, and sent others, like his mother and only sister, on desperate escape routes into China. Alone on the streets, Joseph learned to beg and steal. He had nothing but a street-hardened survival instinct. Finally, in desperation, he too crossed a frozen river to escape to China. There a kindly Christian woman took him in, kept

Uniquely Human : A Different Way of Seeing Autism

by Prizant, Barry M.

9 781476 776231

Essential reading for any parent, teacher, therapist, or caregiver of a person with autism: a groundbreaking book on autism, by one of the world's leading experts, who portrays autism not as a tragic disability, but as a unique way of being human. Autism is usually portrayed as a checklist of deficits, including difficulties interacting socially, problems in communicating, sensory challenges, and repetitive behavior patterns. This perspective leads to therapies focused on ridding individuals of "autistic" symptoms. Now Dr. Barry M. Prizant, an internationally renowned autism expert, offers a new and compelling paradigm: the way to help a person with autism change for the better, he argues, is to change ourselves—our attitudes and our behavior. In Uniquely

Upside of Stress : Why Stress Is Good for You, and How to Get Good at It

by McGONIGAL, Kelly

9 781583 335611

FP 75,000. The author of WILLPOWER INSTINCT delivers a controversial and groundbreaking new book that overturns long-held beliefs about stress. McGonigal highlights new research indicating that stress can, in fact, make us stronger, smarter, and happier - if we learn how to embrace it. THE UPSIDE OF STRESS is the first book to bring together cutting-edge discoveries on the correlation between resilience - the human capacity for stress-related growth - and mind-set, the power of beliefs to shape reality. Very Good Lives : The Fringe Benefits of Failure and the Importance of Imag ...

by **Rowling, J. K.**

FP 200,000. In 2008, J.K. Rowling delivered a deeply affecting commencement speech at Harvard University. Now published for the first time in book form, VERY GOOD LIVES presents J.K. Rowling's words of wisdom for anyone at a turning point in life. How can we embrace failure? And how can we use our imagination to better both ourselves and others? Drawing from stories of her own post-graduate years, the world famous author addresses some of life's most important questions with acuity and emotional force.

In this ground-breaking book, biologist Alanna Collen reveals how our personal colony of microbes influence our weight, immune system, mental health and even our choice of partner. Illuminating many of the questions still unanswered by the human genome project 10% Human completely changes our understanding of diet, modern disease and medicine. The good news is that unlike our human cells, we can change our microbes for the better and this book shows you how. Alanna Collen is a science writer, with both bachelor's and master's degrees in biology from Imperial College London, and a PhD
