**10% Human : How Your Body’s Microbes Hold the Key to Health and Happiness**

*by Collen, Alanna*

A revelatory, illuminating guide to the role of your body’s microbes in promoting your health and happiness. This is popular science at its most relevant: life will never seem the same again. You are only 10% human. For every one of the cells that make up your body, there are nine impostor cells hitching a ride. You are not just flesh and blood, muscle and bone, brain and skin, but also bacteria and fungi. And you are more “them” than you are “you.” Far from being passive, the trillions of microbes that live on and in you are intimately involved in running your body.

**Block City: Incredible Minecraft Worlds : How to Build Like a Minecraft Mas ...**

*by Kearney, Kirsten*

Minecraft—a humble computer game about placing blocks—is a global phenomenon that has captured the imagination of more than 36 million players around the world. Often described as a digital version of LEGO, Minecraft offers an open-ended playing field where players design and build environments that others can explore. For many users, the game's "creative mode" is its most appealing feature: The game is helping to shape a generation of young architects, designers, and artists. The most impressive and spectacular achievements in Minecraft design are its cities, which range in style from contemporary realism to fantasy, from historical to futuristic. The product of thousands of hours of work by devoted Minecraft players, these virtual places are the

Empire of Deception: From Chicago to Nova Scotia - the Incredible Story of ...
by Jobb, Dean

EMPIRE OF DECEPTION is not only an incredibly rich and detailed account of a man and an era; it is a fascinating look at the methods of swindlers throughout history. Leo Koretz was the Bernie Madoff of his day, and Dean Jobb shows us that the dream of easy wealth is a timeless commodity. A slick, smooth-talking, charismatic lawyer, Leo enticed hundreds of people to invest as much as $30 million in phantom timberland and non-existent oil wells in Panama. When Leo's scheme finally collapsed in 1923, he vanished. When finally apprehended, Leo was living a life of luxury in Nova Scotia under the assumed identity of a book dealer and literary critic.

Fat Girl Walking
by Gibbons, Brittany

Told through a series of larger-than-life snapshots, a hilarious memoir in essays about love, sex, marriage, motherhood, bikinis, and loving your body, no matter what size you are from the acclaimed blogger and body image advocate Brittany Gibbons has been a plus size her whole life. But instead of hiding herself in the shadows of thinner women, Brittany became a wildly popular blogger and national spokes-model - known for stripping on stage at TedX and standing in Times Square in a bikini on national television.

For Better or For Worse: Comic Art of Lynn Johnston
by Johnston, Lynn

For 30 years, cartoonist Lynn Johnston made daily additions to what would become a monumental body of work: her newspaper comic strip, For Better or For Worse that chronicled the daily lives of the middle-class suburbanite Patterson family. Wildly funny and formally innovative, this book will be published to coincide with an international touring exhibition of Lynn Johnston's work, organized by the Art Gallery of Sudbury. It features some of Johnston's most popular narratives, an essay that chronicles the development of her drawing and the history of her wildly successful comic strip.

Humans Are Underrated : Proving Your Value in the Age of Brilliant Technolo ...
by Colvin, Geoff

FP 75,000. From the bestselling author of TALENT IS OVERRATED, an extensive look at the essential human skills that can never be replaced by technology. In the economy of a few years from now, what will people do better than computers? The real issue is what we humans are hardwired to do for and with one another, arising from our deepest, most essentially human abilities - empathy, social sensitivity, storytelling, humor, forming relationships, creativity. These are how we create value that all people hunger for, that is unique and not easily quantified.

No Better Friend: One Man, One Dog, and Their Extraordinary Story of Coura...

by Weintraub, Robert

The extraordinary tale of friendship and survival between a man and a dog in war. AN UNCOMMON BOND tells the remarkable story of Royal Air Force technician Frank Williams and Judy, a purebred pointer, who met in an internment camp during WWII. Judy was a fiercely loyal animal who sensed danger and instinctively mistrusted anyone in enemy uniform. Their relationship deepened throughout their imprisonment. The prisoners suffered severe beatings which Judy would interrupt with her barking. The dog became a beacon for the men, who saw in her survival a flicker of hope for their own. Judy was the war's only canine POW, and when she passed away in 1950, she was buried in her Air Force jacket. Williams would never own another dog. Their

# Someone Is Hiding Something: What Happened to Malaysia Airlines Flight 370 ...

**by Belzer, Richard**

A year after the disappearance and commencement of the international search for Malaysia Airlines Flight 370, no sign of the plane has been found--no debris, no bodies, no sign of the much-talked-about black box. Richard Belzer and David Wayne want to know why. Scrutinizing the theories the media and politicians around the world claim are the "most likely" reasons the plane crashed, Belzer and Wayne argue that if a year after a huge Boeing 777 has gone missing, and there's still no sign of it whatsoever, it's time to think outside the box. The public needs to stop being misled. If a plane and it's passengers went "missing" once, what's to stop it from happening again? In informative, engaging text, Belzer and Wayne consider ten lesser-talked-about possible explanations.

Uniquely Human: A Different Way of Seeing Autism by Barry M. Prizant

Essential reading for any parent, teacher, therapist, or caregiver of a person with autism: a groundbreaking book on autism, by one of the world’s leading experts, who portrays autism not as a tragic disability, but as a unique way of being human. Autism is usually portrayed as a checklist of deficits, including difficulties interacting socially, problems in communicating, sensory challenges, and repetitive behavior patterns. This perspective leads to therapies focused on ridding individuals of “autistic” symptoms. Now Dr. Barry M. Prizant, an internationally renowned autism expert, offers a new and compelling paradigm: the way to help a person with autism change for the better, he argues, is to change ourselves—our attitudes and our behavior.
