Lot No.	Description	Selling Price
168	G.W.R. Style block bell	115
169	Signal Box Gradient Profile on hanging card Berkeley Road to Bristol Temple Meads.	22

Explanation: GWR = standard type with 1 Fan Output. GIRW = with main switch, Motor Control, load relay and up to 3 Motor groups with departure protectors. The faulty motor on a GIRW becomes galvanic separated from the net. At the GWR switched off the motor power supply in the error case. /5 = 5 Ampere (1 x 5A or 2 x 2,5A or 3 x 1,65A) or /10 = 10 Ampere (1 x 5A or 2 x 5A or 3 x 3,35A). Explanation: This detail refers to the complete Motor current. You don't have attach but be able to combine arbitrarily two equal-type feelers. You only take, that you care have adjusted the attached feeler type ES1 and ES2 at the choice switch correctly: Selector ES1/ES2: up middle down. This package has been serving double-duty as a card table for the last week. But now it's yours, and the people of A Special Delivery from London(PortReminder) will be glad to receive it. +1 x A Special Delivery from London. Previously Impounded Goods = 1 [You have collected the goods.] Bribe the superintendent to give you a travel permit. You must be circumspect. Game note: Once you have a permit, you'll be able to travel between Albion and the Reach via the relay. Future captains in your lineage will inherit the permit. Reach-Albion Transit Permit 0. He passes you an ornately marked vellum scroll, sealed with the Eagle's Emphyrean emblem. "It might look nice, but they don't fit in my filing cabinet. Bloomin' Emphyrean show-offs."
